SENATE CONCURRENT RESOLUTION

DESIGNATING THE HAWAII STATE CAPITOL BUILDING AND ITS GROUNDS AS
A SINGLE-USE PLASTIC FREE ZONE.

1 WHEREAS, over the past few decades, both locally and
2 globally, there has been an exponential rise in the consumption
3 of plastic items, including a six hundred ten percent increase
4 in raw plastic production since 1975; and

5
6 WHEREAS, plastic packaging accounts for more than half of
7 the plastic waste in the world and Americans are among the
8 highest per capita users of plastic packaging; and

9
10 WHEREAS, only nine percent of plastic produced is recycled
11 and twelve percent is incinerated, with the rest ending up in
12 landfills or in the environment, with much of the improperly
13 disposed plastic eventually ending up in the ocean; and

14
15 WHEREAS, an additional eight million metric tons of plastic
16 end up in the ocean each year, contributing to plastic islands
17 like the Great Pacific Garbage Patch, the largest accumulation
18 of ocean plastic in the world, which lies between Hawaii and
19 California; and

20
21 WHEREAS, the production of plastic products contributes to
22 climate change, and by 2050, is projected to account for twenty
23 percent of global fossil fuel use; and

24
25 WHEREAS, single-use plastic products are especially
26 detrimental for Hawaii's environment, flora, and fauna, as
27 ninety-five percent of plastic packaging is discarded after its
28 first single-use, eighty percent of ocean plastic pollution
29 enters the ocean from land, and countless marine animals, birds,
30 and corals are harmed from the ingestion of and the suffocation
31 from plastic pollution; and
32

1 WHEREAS, single-use plastic products also present an
2 exacerbating threat to the economy, with single-use plastics
3 being major contributors to street and beach litter, causing
4 intangible damage to the State's tourist reputation, as well as
5 millions of dollars in stormwater management and cleanup
6 efforts; and
7

8 WHEREAS, the cost of plastic pollution on marine litter
9 alone is estimated at \$13,000,000,000 per year, which includes
10 the impact on fisheries, tourisms, and biodiversity; and
11

12 WHEREAS, the total social and environmental costs is pegged
13 at a staggering \$139,000,000,000, which includes costs from the
14 impact on climate change, health, crops, the environment, and
15 the cost of waste disposal; and
16

17 WHEREAS, a growing body of scientific literature has
18 identified potential human health hazards from plastics,
19 including that the incineration of plastic releases harmful
20 dioxins that may be released into ambient air; single-use
21 plastics like polystyrene and single-use plastic bottles may
22 leach endocrine-disrupting and potentially carcinogenic
23 chemicals with re-use; and microplastics may be ingested by
24 marine animals and bioaccumulate and biomagnify up the food
25 chain, bringing toxic chemicals into food sources; and
26

27 WHEREAS, feasible alternatives to plastics exist at cost-
28 competitive levels; Hawaii has pledged its support for the
29 Aloha+ Challenge, one of the pillars of which is solid waste
30 reduction; and the Legislature has introduced multiple bills
31 that aim to curb or eliminate plastic waste; now, therefore,
32

33 BE IT RESOLVED by the Senate of the Thirtieth Legislature
34 of the State of Hawaii, Regular Session of 2019, the House of
35 Representatives concurring, that the Legislature is urged to
36 designate the Hawaii State Capitol building and its grounds as a
37 single-use plastic free zone; and
38

39 BE IT FURTHER RESOLVED that the Legislature is urged to
40 convene a working group dedicated to finding solutions to reduce
41 single-use plastics in the Hawaii State Capitol building and its

S.C.R. NO. 31

1 grounds, as well as how to effectively execute the
2 implementation of a single-use plastic free zone; and
3

4 BE IT FURTHER RESOLVED that certified copies of this
5 Concurrent Resolution be transmitted to the President of the
6 Senate, Speaker of the House of Representatives, and members of
7 the Hawaii State Legislature.
